

IT'S ALL ABOUT TEAK

PRODUCT HIGHLIGHTS

 GLOSTER

GLOSTER'S PRODUCT HEROES DEFINE THE COLLECTION. THE NEW SALINA RANGE OF MODULAR SEATING ENRICHES THE PORTFOLIO AND OUR CONSISTENT BESTSELLERS SPAN ALL CATEGORIES - FROM LOUNGE THROUGH TO DINING.

2025

It's all about teak. The benchmark hardwood for fine outdoor furniture for more than 700 years.

With a beautiful sheen and a soft natural finish, every piece of Gloster teak originates from carefully managed plantations and is thoroughly inspected to ensure that quality endures.

Teak is a close grained hardwood with a high natural oil content. This makes it hard wearing, highly resistant to rotting and almost impervious to the effects of sun, rain, frost or snow. These characteristics combine to make it the ideal timber for all outdoor applications.

Only premium grade plantation grown teak is used for the manufacture of Gloster furniture. The features of premium grade teak are a straight grain structure, the absence of knots, splits or cracks and an even overall colour.

Many things make Gloster's teak furniture exceptional. For example, the joints used are specifically chosen to provide the strongest means of joining the component parts together. Thanks to the use of kiln dried timber and our modern wood-working machinery, these joints are made to extremely tight tolerances, which means that they are always a perfect fit and there are no visible gaps between two pieces of joined wood.

It's all about the new collection. Salina is a combination of stylish design teamed with expertly crafted engineering.

As life gets faster and more complex, the need for quality time and space - the freedom to be you - grows too. At Gloster we open doors to timelessly beautiful exteriors where your furniture sets the mood, just the way you want it to be.

If you are yet to discover Salina, there is a delight unknown that awaits you. Raised starkly from beneath the Mediterranean Sea by volcanic activity then shaped and softened in a tumble of elements and flora for millennia, this perfect part of a small archipelago, a touch north of Sicily, is exquisitely crafted by nature. So, the inhabitants

of this verdant jewel are fashioned in turn by their surroundings. Life is simple. Structure and form are defined by objectives. Texture and tone are but casual combinations of weathered wood, tousled vines, piled stone. And the ubiquitous net, so prized to deliver quicksilver shoals from daybreak crystal waters to gregarious sunset dining.

SALINA Proudly, artfully
echoing its island namesake.

Salina's rustic and rugged materials are hewn, reduced and fused, refined to a point where simplicity of form infers reassuringly classic style. Then an integrated comfort delivers a contrasting opulence and promise of something truly, excitingly unique.

Four teak poles mark the extremities of the Salina collection's signature frame. Enclosed within, a teak base refined with stainless steel details is crowned with deeply inviting seat and scatter cushions. As further range components follow these cues, style and comfort are shared in balance across a sofa, corner units and chaise. The collection extends to a tessellating square coffee table and ottoman along with an additional smaller square ottoman and two options of round occasional table.

SALINA ROUND COFFEE TABLE

Solid, plantation teak frame with brushed stainless steel details.

SALINA It is this little-known isle that spoke to Matteo Thun and Benedetto Fasciana when they sought inspiration for their latest Gloster collection.

Teak poles are artfully connected by fibre wrapped frames infilled with a mesh that speaks of both vine and net in equal measure. The innovative outdoor fibre used to craft the internal panels is characterized by a natural texture, creating an open, woven composition that is both gentle and familiar.

It's all about comfort

As the sun's arc describes another day, fleeting clouds and spreading shadows create a patchwork of light and shade. Pushed and pulled by transient light, breezes dip and roll alternately soothing, then interrupting moments of calm. Days outdoors will always bear the weight of uncertainty. There is no perfect solution. But there is a way to move with the elements - to embrace each changing instance to its fullest.

Daringly mobile, brazenly inviting, unashamedly indulgent. Rarely has a piece of furniture appeared so unequivocally fit for purpose. Zenith marks the peak of the Gloster design aesthetic. A blend of diverse materials combined in a lounge collection that is simple, yet striking. Modern yet familiar. Luxurious yet practical.

CARVER + ARCHI

Scandinavian design meets shaker. At home in any contemporary space, Archi leaps creative boundaries, combining notes of modern architecture with a minimalist aesthetic.

CARVER + SWAY TEAK

With Sway, Danish designer Henrik Pedersen has combined a finely proportioned teak frame with a practical sling seat and back to deliver inherent comfort despite an extremely minimal profile.

CARVER DINING

In the same way that an artist carves in stone or wood to create a unique form, the same way of thinking has been applied to the Carver tables, where the cross-rail and legs have been subtly sculpted, like pieces hewn from a solid block. These iconic tables are topped with either stylish, slatted teak or practical solid ceramic tops.

LIMA DINING

As an extension to the Lima modular lounge collection, Lima Dining talks the same design language - one of simplicity, honesty and a deep sense of quality and genuine craftsmanship.

LIMA DINING

Lima is an expression rooted in the Scandinavian tradition, where warm, natural and tactile materials are combined in a simple but aesthetic unity.

LIMA DINING

With nature very much in mind throughout the whole design, the variegated colour all-weather wicker features a subtle, distressed finish - giving the furniture a familiar and rustic feel.

It's all about LIMA

The essence of natural and tactile materials are brought together into one, defined element in the Lima collection by Henrik Pedersen.

Plantation teak, Wheat colour outdoor wicker, natural leather and soft-to-the-touch, textured fabrics combine in a subtle mix, where you can sit down, hang out, and feel the warm embrace of nature.

LIMA DINING

With practicality always in mind, the flexibility of the Lima collection elements ensures that you can configure your dining set however you like - square or rectangular tables, teak or ceramic tops, dining armchairs, side chairs or benches.

It's all about the scene

Open spaces release the heart and the soul. Vast horizons quietly and gently remind us of a freedom lost for centuries. It's no surprise we love the soft dawn, that we wonder at the ruby and amber of a sunset - lost momentarily as the world revolves.

But even nomadic people crave structure. We all need a silhouette against the bright wilderness. A glowing doorway amongst creeping darkness. To step through and to feel at home. We should never dream to improve upon nature, but we can aspire to compliment her.

LIMA + KAY

The backrest is unquestionably the defining statement of the Kay range. Beautifully curved for comfort, Kay embraces you as you sit offering comfort and shelter. Available in either Brindle, Harvest or Copper colour all-weather wicker combined with a delicate, plantation teak frame, Kay's lines combine timeless style with practical comfort.

DECK + BORA

Available in three lengths of 289cm, 365cm and 439cm, the Deck dining tables are conceived as the modern, contemporary alternative to Gloster's rustic RAW tables and crafted from generous cuts of the very best plantation teak, hand selected by our dedicated experts to ensure their perfection endures.

BORA LOUNGE

The rounded expression of circles in the woven backs of Bora, create a soft and inviting seating comfort. Inspiring trust and guaranteeing stability, a wide, strong stance is artfully formed from plantation teak in a peerless combination of fine craftsmanship and classic, mid-century, Scandinavian style.

It's all about BORA

A combination of the tactile and the ethereal, Bora alludes to the imposing, climatic winds that buffet and ruffle the Adriatic coast. Simultaneously the name evokes a sense of the remote and the exotic, painting a path to the horizon where oceans and skies meet and continents crumble into archipelagos.

NAVIGATOR shaped by memories of a classic era of luxurious travel.

Navigator - elevating heritage style to pioneering plush. Shaped by memories of a classic era of luxurious travel when adventurers and explorers sought portable comfort as they travelled, Navigator is a contemporary interpretation of vintage campaign furniture.

To pinpoint a desired destination and take an unwavering path towards the identified goal, is the timeless task of the navigator. Pursuing one's adventures with such single-minded clarity invariably leads to inspired and fulfilling adventure. And a similar motivation has undeniably shaped Glyn Peter Machin's equally singular development of the Navigator collection for Gloster.

It's all about RAW

A story of passion told over as many as 70 years of growth. RAW furniture proudly displays every growth ring, every knot and every graceful ebb and flow of the wood grain formed as each of Gloster's plantation grown teak trees mature. In normal mass production, timber is regulated, ordered, standardised to conform to strict manufacturing parameters. But with the RAW concept, we celebrate the unpredictable and revere the irregularity of nature.

RAW + ARCHI
